

Freewayptt Radio Icon Colors

This guide provides essential information on interpreting the color-coded icons in Freewayptt, enhancing your understanding of radio communications. By distinguishing between active radios in the same group, private calls, and different groups, you can more effectively manage and respond to radio traffic. Viewing this guide will improve your operational efficiency and communication clarity in various scenarios.

1 Icons in Blue indicate a radio active in the same group as the dispatcher

2 Icons in Green indicate radios active in a private call between multiple radios

3 Icons in Orange indicate a radio active in a different group to the dispatcher
