PlanetSustain by InvoSystems

PlanetSustain helps schools, colleges, and universities launch their sustainability initiatives by actively engaging students and faculty. Together, they can build awareness, adopt responsible consumption practices both at home and on campus, reduce costs, create greener environments, and help preserve our planet Earth.

Environmental Awareness	**Green Education**
Integration into Curriculum	**Eco-Schools Programmes**
Eco-Campus Programmes	**Teacher / Faculty Training**
Cost Savings	**Build Institutional Reputation**

Integrate the app into environmental science courses

Assist the nation's efforts in achieving the Net Zero goal.

PlanetSustain Sustainability Programme

- **Create environmental awareness**, and educate and train students, teachers, faculty, staff, and the community.

- **Engage stakeholders** (students, faculty, and staff) in tracking their carbon footprint both at home and on campus, while integrating sustainable practices to reduce overall consumption.

- **Strengthens Community Involvement**: Build a sense of responsibility and collective action.

- **Cost Savings**: Encourage energy-efficient practices that lead to significant cost reductions.

- **Foster Innovation**: Encourage the development of new ideas and solutions to make campuses more sustainable.

- **Contribute to SDG goals**

PlanetSustain supports
#GoGreen G campaign every year, led by the Ministry of Sustainability and the Environment, Singapore.
