PROFESSIONAL EXPERIENCE

Low-Coders LLC

10/19-Present

Enterprise QuickBase Consultant / Owner

Consulting QuickBase developer consulting in SMB as well as Fortune 10 companies.

Results:

- More than \$1MM billed in direct QuickBase development.
- Work in critical / sensitive healthcare systems.
- Every client retaining my services remains a client (after an average of 4 years).

VeilSun

10/18-10/19

CTO / Enterprise QuickBase Consultant

CTO and Enterprise QuickBase developer.

Results:

- Implemented rigorous security and governance practices.
- Helped build development team.

Schellman & Company

8/12-10/18

CTO / Enterprise QuickBase Architect

CTO & QuickBase Architect of an international technology security assessment and auditing firm – with a global backbone of more than 40 business-critical QuickBase applications.

Results:

- Deployed 15 new QuickBase Web API applications – from simple distance calculations, to complex PDF document creation, to forms and website mashups utilizing JavaScript & PaaS systems including Google AdWords, WebMerge, Workato, QuickBooks, Concur, Zapier, Google Mail, HubSpot, and Salesforce.com.
- Developed and deployed a standard QuickBase development methodology.
- In the span of less than 2 years, built / improved / re-engineered / supported enterprise QuickBase applications supporting a global \$12MM (2012 revenues) to a \$50MM (2018 revenues) organization.

Battery Direct

8/12-1/13

Consulting Senior QuickBase Developer

Charged with developing an enterprise level QuickBase application to manage onsite consignment inventory at more than 50 locations across Canada. 100% QuickBase analysis and development.

Results:

- Analyzed business model and created an extensive roadmap for the application that was approved by management.
- Developer & analyst of an enterprise QuickBase system.
- Trained onsite support and administrative staff to support user base and program.

Department of Human Services, Washington DC

8/12-1/13

Consulting QuickBase Developer 4

Supervising developer within DHS supporting and re-developing multiple mission-critical government systems serving the DC public schools system, DHS, and other DC agencies. 100% QuickBase analysis and development.

Results:

- Analyzed and re-designed time card management handling in DCAS Project Management system.
- Analyzed DHS Change Request system, and re-designed time accounting by adding sophisticated time accounting and time card features.
- Analyzed and provided in-depth pre-launch usability study of Economic Security Agency CSL Rep application.
- Analyzed and updated DHS New Heights Student System for DC Public Schools.

Florida Auto & Truck Exchange

8/11-Present

Consulting QuickBase Developer & IT Manager

Charged with re-creating the entire technology base, infrastructure, and process flow to achieve a goal of doubling volume (and revenues) in less than 90 days. Sole enterprise QuickBase Developer and Project Manager. Pure QuickBase shop.

Results:

- Designed, built and deployed a new QuickBase ERP system that was the driver for the doubling of volume in three months - *for less than a tenth the cost of competing systems.*
- Designed, built and deployed QuickBase lead generation and management system that increased lead volume by more than 50%, while lowering per unit acquisition cost by more than 20%.
- Led the cross-functional assessment, re-engineering, and optimization of every business process in the enterprise - from accounting to sales.
- *In the end, conceived, built, and deployed an infrastructure that drove a 100% increase in EBITDA in 90 days.*

Nurturity

8/07-7/11

Enterprise QuickBase Developer & CTO

Developed a new concept in QuickBase (platform as a service) marketing. Designed and created a national, web-based marketing & sales management platform for SMB drip & nurture marketing on QuickBase. This million-dollar platform was delivered on a subscription basis to businesses across the country. QuickBase was the sole platform used by this business.

Results:

- Designed, built, and fielded a shared QuickBase marketing platform that included drip marketing, lead nurturing, lead scoring, PURLS, portals, and a host of other new Web 2.0 marketing tools.
- Acting as technical sales lead and counselor, closed more than 25 B2B accounts while managing their entire transition onto the shared platform.
- Implemented extensive cloud-based integration using cutting-edge Web 2.0 tools including SaaS, SQL Server, Amazon S3, Web Services, QuickBase, and other cloud-based tools.

EDUCATION
