TABLE GAMES CHIP TRAY

A casino table game chip tray is a container used to hold and organize casino chips during table games . They are typically made of metal, acrylic and have compartments for different denominations of chips. Some trays also have a lid to keep the chips safe and secure.

Here are some of the benefits of using a casino table game chip tray :

Organization: Keeps your chips organized and within easy reach.

Prevention of loss: Helps to prevent chips from getting lost or stolen.

Protection: Protects chips from damage.

Convenience: Makes it easy to carry and store chips.

Here are some of the different types of casino table game chip trays :

Stackable trays: These trays can be stacked on top of each other to save space.

Locking trays: These trays have a lid that can be locked to keep chips secure.

Electronic trays: These trays have a built-in chip counter that keeps track of the number of chips in each compartment.

Ultimately, the best type of casino table game chip tray for your casino will depend on your individual needs and preferences. Consider factors such as the size of your chip float, the types of games you play, and your budget when making your decision.
