

Breeder Info

Please read these instructions carefully before proceeding with the breeder information and lamb registration sections. Ensure all information is accurate and complete.

Fees are automatically calculated for each valid entry. At the end of the registration process, you will be presented with the total and the option to pay or perform other transactions.

You must be a current HSSR member and the Breeder of the lamb to register it.

Registrations must be done in the year the lamb was born. Example: a lamb born 11/25/2025 must be registered by December 31, 2025.

This form allows for up to 15 lamb registrations in one session. Additional registrations will require completion of one session and starting a new session for the remaining lambs.

Current HSSR members can only register and then transfer a lamb to another existing current HSSR member.

If a lamb is sold to a non-member, you will sign the transfer on the back of the certificate and give it to the new owner. It is their responsibility to join the HSSR, then Transfer the animal to their name.

Photos

NOTE: Both photos (right and left sides) should be free from other sheep, with as little background distraction as possible. The full body will show the tips of the ears to the bottom of hooves, and from the tip of the tail to the tip of the nose. No photos with lambs being held in someone's arms are allowed.

Please **use the High Resolution setting in good light.**

Do not crop photos, we will do that for the certificate.

Best shooting results: set your phone or camera to "**Burst**" or "**Continuous**" mode, capturing at least 10 shots of each side so you can select the best shots for submission.

**Restraining your lamb one at a time in a stall or paddock
will help you achieve the best photos possible.**
