

ABOUT US

Founded in 2020, St. Cilia Fiber Industries Pvt. Ltd. has swiftly emerged as a prominent player in Sri Lanka's esteemed coir manufacturing industry. With a strong emphasis on innovation, quality, and sustainability, we specialize in converting the mesocarp of coconuts into high-grade coir twine. Our primary focus is producing twine for the agricultural sector, particularly for stringing hops in the United States. Leveraging Sri Lanka's rich heritage in coconut cultivation, we have established efficient and environmentally responsible manufacturing processes that set us apart in the market.

Our commitment to excellence is reflected in every aspect of our operations, from sourcing raw materials to the final product delivery. We pride ourselves on our dedicated workforce, cutting-edge technology, and unwavering dedication to environmental stewardship. By exporting our coir twine to the USA for hops growth, we support the global agricultural community and ensure that our products meet the highest standards required by our international clients.

Our success is built on the strong foundation of our core values and the relentless pursuit of innovation. We continually invest in research and development to enhance our product offerings and explore new applications for coir twine. Our forward-thinking approach allows us to stay ahead of industry trends and meet the evolving needs of our customers. At St. Cilia Fiber Industries Pvt. Ltd., we believe in fostering long-term relationships with our clients, partners, and stakeholders. We are committed to transparency, integrity, and excellence in all our endeavors, striving to make a positive impact on the world and pave the way for a sustainable future.
