

Nosie Posie Puppies

Guardian Home Opportunities

Every dog deserves the proper attention and love, no matter if they are just a pet or used for breeding. Because of this, I have decided to offer a guardian program so each dog can receive the proper attention and love they most definitely deserve and not be left feeling neglected. Every so often we will have a puppy we purchased or a puppy we kept back from one of our litters available for a guardian home. You will be getting one of the best dogs we have to offer at an incredibly discounted rate in exchange for your assistance throughout the breeding lifetime of the dog. Read below to find out more about this opportunity and fill out the application below if you believe you may be a good fit for our guardian home program.

REQUIREMENTS:

- Guardian must live within a 45-minute drive of breeder's home in Omaha, NE.
(**Exceptions may be made if guardian is willing to drive to us regularly!)
- Guardian has no right to puppies produced by this dog or to semen produced by the dog.

Benefits of being a Guardian Home?

Being a guardian home for our breeding program has many perks, as well as responsibilities. We strive for a mutually beneficial relationship between ourselves and our guardian homes. Firstly, the rate you will pay for your puppy is steeply discounted. We only require you to pay a price of . Price may increase if the puppy is older than 8 weeks of age and has received additional vet visits or training. You will receive one of the best puppies we can produce or a 'pick of the litter' puppy from another breeder from which we purchase the puppy. We look for quality genetics, personalities and looks in all the dogs we buy to become one of our breeding dogs. When the dog has whelped or fathered an appropriate number of litters, they will be spayed or neutered at no cost to you. Additionally, for those who house female dogs, they will be compensated \$250 for each litter the dog has as a "thank you" for your patience while your beloved pet is away.

What would be required of you as a Guardian Home?

- Provide the dog with a safe and loving home, including but not limited to:
 - Containing the dog in a fenced-in yard or on a leash
 - Provide adequate exercise for the dog to prevent issues such as hip dysplasia
 - Train the dog on basic commands (sit, stay, wait, etc.) or attend obedience classes
 - Housebreaking
 - Feeding the dog an approved high-quality food (contact us if you are wanting to switch from what we feed)

- Do not allow him/her to become overweight
- Keep dog socialized with dogs and people of different ages and sizes
- Keep the dog clean and well-groomed
- Provide the dog with basic veterinary care, including but not limited to:
 - Yearly wellness visits and vaccines
 - Any medical issues the dog may have which are NOT related to breeding
 - Emergency vet costs (NOT related to breeding)
 - Keeping dog on monthly, year-round preventative medications against heart-worms, fleas and ticks.

I acknowledge that I have read and agree to all the conditions listed above.
