

Croissant Machine Dough Sheeter LSP650R

Dough Sheeter

- 1. Dough Sheeter Large roller opening (40mm) with large hard chrome rollers**
- 2. Very large dough weight capacity**
- 3. Steel, stainless steel & aluminium (not plastic components & casings like many other sheeters)**
- 4. Easy to remove & clean scraper assemblies with low replacement cost**
- 5. Safety guards with internal safety switching**
- 6. Quality food grade conveyor belt (not a cotton belt)**
- 7. No external switches to allow flour entry & subsequent damage**
- 8. Allows easy access in folded position to conveyor drive-rollers for cleaning (unlike other sheeters)**
- 9. Poor cleaning enables dough build up on the rollers causing a bump under the sheeting belt, this can catch on the scrapers thus ripping the belt.**

Sheter Specifications

Croissant Machine Dough Sheeter LSP650R

Power Type:Electric

220V,50HZ,0.72Kw

Thickness:1-40mm

Roll Size:88x650mm

Belt Size:630x2400mm

Ne Weight:225kg

Material:

Stainless Seel & painting

Overall Dimensions:

Length:1100mm

Width:2950mm

Hight:1180mm
