

## Floor Type High Power Fryer Series PF-OFG321

### Product Description

Open PF series floor-standing electric furnace is designed for deep-fried fast-food restaurants

### Standard Features

Smart Function as below:

- Computerized Control, state to art workmanship, easy handling
- High efficiency heating device
- Hot key to store memory for time and temperature, easy operation
- stand alone time and temperature control
- Built in oil filtration, no additional filtering cart needed.
- Built in Insulation ensuring energy and working efficiency
- Slidable heating device facilitating cleaning
- Stainless structure for durability and long service life

1. Built-in filtration increases employee productivity.
2. Cold zone between heating elements helps extend oil life.
3. High-limit temperature protection.
4. Shortcuts to save memory function.
5. 304 Stainless Steel cabinet for easy cleaning and long service life.
6. 4 heavy-duty casters, 2 locking.

### PF-OFG321 OIL FILTER

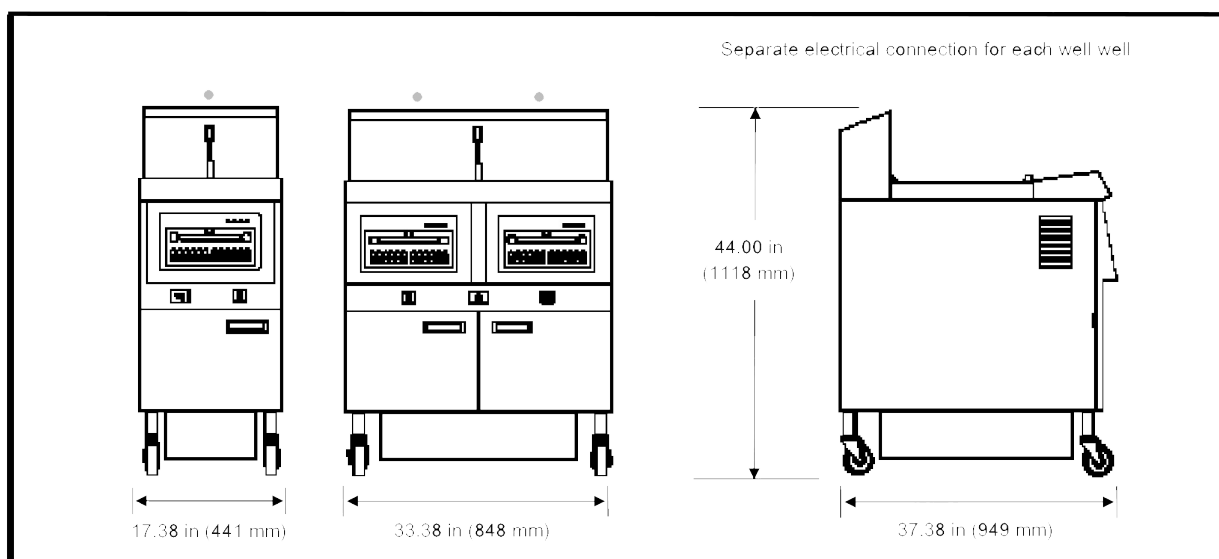

### Product Description

1. Item Name: Electric Open Fryer Ofc-321 (Single Tank)
2. Model No.: OFE-321/OFG-321/OFE-322/OFG-322/OFE-323/OFG-323L
3. Certification: ISO9001, CE, SASO, CIQ, COLlectric open fryer

OFE OFG serial fryer is our latest product based on upgrading of technology of conventional vertical fryers and integrating of computerized control and LCD monitor control technologies instead of relay controls. New technology facilitates handling and operation, at the same time, provides better control over timing and temperature monitoring.

The machine is structured with stainless steel to facilitate its utilization in restaurants, hotels and other catering spaces.

Automatic control over timing and temperature greatly brings advantages to its daily use and operation. The machine is also featured with its controllable fry temperature, 2000, Large volume and capacity, easy handling, power efficiency and an oil filtering unit locating at the bottom of the fryer, which enables multiple filtration for the oil we use just to extend oil service life, improve quality and cut oil expense.

Model	PF-OFE321	PF-OFE322	PF-OFG321	PF-OFG322
Capacity	25L	25Lx2	25L	25Lx2
Voltage	3Phase 380V(50/60Hz)		Single Phase 110/220V(50/60Hz)	
Power	14.2kW	27.7kW	0.7kW	0.9kW
Power Source	Electric		LPG Or Natural Gas	
Size(mm)	441*949*1180	882*949*1180	440*900*1130	850*900*1130
Net Weight	128KG	185KG	138KG	212KG
Filtration	With filtration system
