We Win Together

## GENERAL SERVICES ADMINISTRATION

Federal Supply Service

### Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA *Advantage!*®, a menu-driven database system. The INTERNET address GSA *Advantage!*® is: [GSAAdvantage.gov](https://gsaadvantage.gov).

## Multiple Award Schedule

**FSC Group:** Information Technology

**Contract Number:** 47QTCA24D00DL

**Contract Period:** August 1, 2024 through July 31, 2029

**Contractor:**

AQUA IT LLC  
3601 Commerce Dr  
Arnold, Missouri 63010-5217  
Phone: 321-302-2227  
<https://aqua-it.us>

**Contract administrator:**

Ted Marshall  
[Ted.Marshall@aqua-it.us](mailto:Ted.Marshall@aqua-it.us)  
**Phone: 321-302-2227**  
**<https://aqua-it.us>**

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at [GSA.gov](https://www.gsa.gov).  
Prices Shown Herein are Net

Pricelist current as of Modification PS-0001

**We Win Together**CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SINs	SIN Title
54151S	IT Professional Services
OLM/OLMRC/OLMSTLOC	Order Level Materials

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. **Not Applicable, Services only**

1c. Hourly rates: **See Page 4**

2. Maximum order:

SINs	Maximum Order
54151S	\$500,000

3. Minimum order: **\$100**

4. Geographic coverage (delivery area). **Domestic delivery only within the 48 contiguous states, and Washington, DC**

5. Point(s) of production: **United States**

6. Discount from list prices or statement of net price. **Prices shown are Government net prices – the discounts have been deducted and the IFF has been added.**

7. Quantity discounts. **1% on all orders over \$500k**

8. Prompt Payment terms. **Net 30**

9. Foreign items (list items by country of origin). **Not Applicable**

10a. Time of delivery. **Services Only, to be determined at Task Order Level**

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. **Contact Contractor or To Be Determined at the Task Order level**

10c. Overnight and 2-day delivery. **Contact Contractor or To Be Determined at the Task Order**

We Win Together

level

10d. Urgent Requirements. **Contact Contractor or To Be Determined at the Task Order level**

11. F.O.B. point(s). **Destination**

12a. Ordering address: **Same as Contractors**

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address: **Same as Contractors**

14. Warranty provision. **Not Applicable**

15. Export packing charges, if applicable. **Not Applicable**

16. Terms and conditions of rental, maintenance, and repair (if applicable). **Not Applicable**

17. Terms and conditions of installation (if applicable). **Not Applicable**

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). **Not Applicable**

18b. Terms and conditions for any other services (if applicable). **Not Applicable**

19. List of service and distribution points (if applicable). **Not Applicable**

20. List of participating dealers (if applicable). **Not Applicable**

21. Preventive maintenance (if applicable). **Not Applicable**

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). **Not Applicable**

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: **[www.aqua-it.com](http://www.aqua-it.com)**

23. Unique Entity Identifier (UEI) number: **NU8MBQZPPQP3**

24. Notification regarding registration in System for Award Management (SAM) database. **Contractor registered and active in SAM**

### Labor Category Descriptions

Labor Category/Service Title	Labor Category/Service Description	Minimum Education	Minimum Years of Experience (Must be a whole number cannot be a range)
Systems Analyst	Perform a variety of analytical tasks which are broad in nature and are concerned with the design and implementation of the system taking into account the personnel, life cycle methodology, software and support facilities, infrastructure and agency/mission. Coordinate the activities of technical personnel assigned as part of the project that are working on specific analytical tasks	Bachelors	4
Software Engineer 1	Supports flexible software and development, requirements analysis, process execution and evaluation. Interacts continuously with customers and development team members to gather and refine requirements, ensure effective communication and implementation.	Bachelors	2
Software Engineer 2	Designs, creates, tests, and maintains software, applications, and content solutions to satisfy customer requirements. Supports flexible software and development, requirements analysis, process execution and evaluation. Interacts continuously with customers and development team members to gather and refine requirements, ensure effective communication and implementation.	Bachelors	6
Software engineer 3	Interacts continuously with customers and development team members to gather and refine requirements, ensure effective communication and implementation. Analyzes and studies customer requirements to determine the most effective software and other technologies to satisfy their	Bachelors	8

	needs. Supports flexible software and development, requirements analysis, process execution and evaluation. Interacts continuously with customers and development team members to gather and refine requirements, ensure effective communication and implementation. Designs, creates, tests, and maintains software, applications, and content solutions to satisfy customer requirements		
Consulting Engineer	Collaborate with clients to understand their technical requirements, challenges, and business goals. Provide guidance and recommendations on technical solutions, architectures, and best practices. Assist in the implementation and deployment of technical solutions, providing hands-on support and troubleshooting as needed. May work closely with cross-functional teams to deliver solutions	Bachelors	10
Principal Data Engineer	Duties are complex and may include designing, implementing, or optimizing complex data systems and architectures. Develops scalable data pipelines, ensuring data integrity, and enable advanced analytics and business intelligence. May develop and maintain data models, data warehousing solutions, and ETL or other data processes to support business requirements. Collaborates with cross-functional teams as needed to support strategic business goals. Will operate in multiple security domains as required.	Bachelors	7
Principal DevSecOps Engineer	Facilitates and may lead integrating security practices within the DevOps process to ensure the development, deployment, and operational processes are secure, compliant, and resilient. Facilitates and may lead designing and implementing advanced security measures, automating security practices, and fostering a culture of security within the DevOps processes. Collaborates with engineering, operations, and security teams to enhance security posture and protect our systems and data. Will operate in multiple security domains as required.	Bachelors	8
Senior Principal Applications Engineer	Works on unusually complex technical problems and provides solutions which are highly innovative. Drives innovation to design, development, and deploy sophisticated cloud-based applications and development solutions. Provides consulting to shape and advise on the architecture and engineering practices that drive our cloud strategy and innovation. Guides complex projects, and ensures that cloud applications are scalable, resilient, and aligned with business objectives. Will operate in multiple security domains as required.	Bachelors	10
Senior Principal Data Engineer	Key driver in designing and executing advanced data strategies that support critical business operations and decision-making. Oversees complex data engineering projects and provides strategic direction and technical leadership to ensure data systems are efficient, reliable, and aligned with business objectives. Duties are complex and may include designing,	Bachelors	10

	implementing, or optimizing complex data systems and architectures. Develops scalable data pipelines, ensuring data integrity, and enable advanced analytics and business intelligence. May develop and maintain data models, data warehousing solutions, and ETL or other data processes to support business requirements. Collaborates with cross-functional teams as needed to support strategic business goals. Will operate in multiple security domains as required. Will operate in multiple security domains as required.		
Senior Cloud IT Lead Engineer	Applies advanced technical principles, theories, and concepts related to cloud based technologies. Leads the designing, implementing, and managing of cloud development, infrastructure, and services. Leads the strategic direction of cloud operations, ensuring that cloud environments are efficient, secure, and aligned with organizational goals. May lead a team of cloud engineers and will drive cloud initiatives, and collaborate with various stakeholders to support and enhance our cloud-based solutions. Works on unusually complex technical problems and provides solutions which are highly innovative. Drives innovation to design, development, and deploy sophisticated cloud-based applications and developmet solutions. Provides consulting to shape and advise on the architecture and engineering practices that drive our cloud strategy and innovation. Guides complex projects, and ensures that cloud applications are scalable, resilient, and aligned with business objectives. Will operate in multiple security domains as required.	Bachelors	12
Cloud IT Subject Matter Expert	Provides leadership and expertise for cloud solutions and infrastructure in highly complex environments. Offers expert advice on cloud architecture, design, and deployment for complex and critical projects. Advises on best practices, troubleshooting complex cloud issues, and leading initiatives to leverage cloud technologies effectively. Collaborates with various integrated and cross-functional teams and stakeholders to drive cloud adoption, optimize cloud operations, and ensure that cloud strategies align with business objectives. Will operate in multiple security domains as required.	Masters	12
Chief AI Data Engineer Subject Matter Expert	Combines strategic leadership with deep technical expertise to guide the development, implementation, and optimization of AI and data infrastructure. Defines and drives the AI and data engineering strategy as requested. Collaborates with executive and senior leadership to consult on vision, objectives, and roadmap for AI and machine learning initiatives. Provides advanced technical guidance on AI data engineering and maching learning, including data architecture, data pipelines, machine learning models, and AI algorithms. Solves unusually	Masters	14

**We Win Together**

	complex technical challenges and ensure best practices are followed. Evaluates and integrates new technologies and methodologies to enhance capabilities and maintain a competitive edge. Will operate in multiple security domains as required.		
Chief Multi Lead Subject Matter Expert	Combines strategic leadership with deep technical expertise to shape and execute multi-cloud approaches, ensuring that the cloud infrastructure is robust, scalable, and able to leverage cloud services from multiple cloud providers. Applies advanced technical principles, theories, and concepts to integrate agnostic cloud services into hybrid cloud environments across multiple security domains. Provides guidance on cloud architecture, integration, migration, and optimization. Designs and implements multi-cloud solutions that ensure interoperability, high availability, and security. Oversees the development of cloud architectures that leverage the strengths of multiple cloud providers. Works closely with integrated teams and business stakeholders to ensure cohesive execution of multi-cloud strategies. Provides technical leadership and mentorship to other engineers. Works on unusually complex technical problems and provides solutions which are highly innovative. Drives innovation to design, development, and deploy sophisticated cloud-based applications and development solutions.	Masters	16

**Experience Substitutions**

H.S. Diploma + 4 years additional relevant experience	Equals	Bachelor's Degrees
Associate Degree + 2 year additional relevant experience	Equals	Bachelor's Degrees
Bachelor's Degree + 2 years additional relevant experience	Equals	Master's Degree
A Master's Degree may be substituted for 2 years of relevant experience with a Bachelor's Degree		
A Bachelor's Degree may be substituted for 4 years of relevant experience with a High School Diploma		
An Associate's Degree may be substituted for 2 years of relevant experience with a High School Diploma
