Dear hiring manager,

I am writing to express my enthusiasm for the Computer Aided Design Designer at SQUID. With a strong foundation in electrical engineering and a passion for innovative design, I am eager to contribute to Squid's mission of redefining vehicle safety through advanced automation. The opportunity to work on cutting-edge protection systems aligns perfectly with my expertise in precision CAD modeling, product development, cross-functional collaboration and industrial automation.

Squid's commitment to enhancing vehicle safety through intelligent automation resonates deeply with my professional background. Having worked on industrial automation projects—including my experience with McNeilus—I understand the critical role of precision engineering in developing reliable, high-performance systems. I am particularly drawn to Squid's forward-thinking approach and would be thrilled to bring my skills in electrical design and manufacturing optimization to your team.

I would welcome the chance to discuss how my skills could support Squid's goals in greater detail. Thank you for considering my application—I'd be delighted to contribute to your team's success and help shape the future of automated vehicle safety.

I look forward to the possibility of speaking with you soon.

Thank you for your time and attention,
Pallavi Nayak
