# ABOUT

## ALI TECHNICAL ENGINEERING WORKSHOP

Ali Technical Engineering Workshop was established in the Year 1979 and is currently located in Musaffah Industrial area. It is certified with ISO 9001- 2008 Standard. In its Last decades of experience it have served the customers in the field of Engine Rebuilding services, Steel Fabrication, General Machining etc. We have been serving all kinds of Machining work to Transport Companies, Contracting Companies, Oil & Gas Industries, Heavy Equipment Repairing Companies, Motor companies, Automobile Repairing Workshop etc. We realize that our success in the machining industry is based upon our commitment to quality, reliability, and precision. We are a full service facility capable of producing a single custom piece to thousands of machined parts. Typical materials range from stainless steel, aluminum and brass, to hastelloy and titanium.

We employ machinists, not just machine operators who apply years of machining expertise and knowledge. This enables us to ensure quality throughout the production process. From the moment the material comes in the door, until it is boxed and shipped, we provide quality control information on each step. This assures customers that there are no delays in their production schedule and products are shipped on time. We enjoy a close working relationship with our customers, and communication is key to ongoing customer satisfaction.

*"We are your machining professionals."*

### We are specialised in Combination of Various Facilities

- ✓ Heavy Duty Light Duty Machine shop (Lathe machine)
- ✓ Automobile engine Rebuilding Works
- ✓ General Fabrication works
- ✓ All kinds of welding
- ✓ Heavy Structure Repairing

*Our 60 experienced permanent technicians and Management team members dedicated to fulfill the requirements of our clients.*

**Mr. Muhammad Ali**  
Founder

## Founder's Message

ATEW has become a pioneer in the field of engineering through its exemplary accomplishments in the chosen field. This achievement is possible only by the Management's determined directions that was taken up and executed by all the members of the ATEW single mindedly. Year after year, ATEW has made the mark on its path through continued improvement. ATEW believes in providing quality services and all connected to our business and at the same time ensuring that our customer's services are quality assured before delivery. I would like to take this opportunity to assure that the ATEW Team will devote full efforts to exceed the customer's expectations. I wish all the members of the ATEW to accomplish more in the coming years by providing the best in the market to its valued customer's.

## CEO's Message

As CEO of the company, I have seen us progress from a small engineering company to a large reputable engineering company. The reason for this progression lies not only in hard work and perseverance, but our commitment to satisfy our customers in the best way possible. Ethics, professionalism, commitment and quality are the four pillars upon which our company stands. Our route to success has been highly dependent on our competent team of professionals and our philosophy of upholding client satisfaction. Our long term goals include expanding our operations to more areas of UAE in order to increase our business opportunities. We believe with committed staff and employment of advanced project management techniques, we have a recipe for sustainable growth and achievement. We are very proud of our employees whose dedication and talent have played an important role in company's development.

**Mr. Abdul Malik  
Mohamed Abdulla  
Mohamed Al Ansari**  
CEO

**Mr. Farhad Ali**  
Managing Director

## Managing Director's Message

Ever since Our Business established in UAE since 1979 to serve the clients to their full satisfaction whereby its employees are at all times motivated to perform a precision job. The main activities of ATEW consist of engine rebuilding, lathe works, steel fabrication including precision machining and all kind of machining works. We are proud to mention that since the day of our establishment, we had served a numerous multinational clients in UAE for their steel fabrication requirements and executed with multiple repeat orders from a number of clients, confirming client satisfaction.

We as the Management is very emphatic to execute all the projects to our customer's expectation and specifications so as to face this competitive market with the lone weapon of 'Quality' and win the race. We assure all our clients with our maximum efforts to achieve race. We assure all our clients with our maximum efforts to achieve their quality standards for all their business requirements. We sincerely look forward to working with your esteemed organization and being part of your success.

Outstanding service. Their team machines a punch for us in the evening and delivered to site for respectable delivery charge. This service allows us to save many days down time searching to a commercially available size punch. Outstanding device and quality. Thank you very much.
