

# Technical Documentation

## Relevant and Practical Solutions

### Technical Writing Services

In-house documentation, graphics, videos for clients, where our experts work on the projects outsourced to us.

### Custom Documentation Site

QuickDraft offers a custom documentation site as part of its documentation service, allowing you to avoid investing in a separate documentation tool.

## Why QuickDraft?

**QuickDraft's** founders have gained relevant industry experience over the years, working with various companies, domains, and tools. This exposure has provided them with the knowledge and skills to provide relevant and useful documentation that adds value to your product, hire writers with the right skills, and develop a custom documentation site with the right features.

We take care of your technical documentation needs so that you can focus on your core areas of work, such as product design and development.

# Technical Documentation Services

**Let Us handle your technical documentation so that you can focus on your core work**

QuickDraft takes technical writing projects in-house for companies who want to partner with us for all their technical documentation needs.
